PHYSICS LETTERS A

MASTER INDEX TO VOLUMES 151–160

NORTH-HOLLAND

PHYSICS LETTERS A

A journal devoted to the rapid publication of short communications in all fields of Physics excluding Nuclear Physics and Particle Physics.

INSTRUCTIONS TO AUTHORS

Submission: Contributions, written in English, should be sent to the editor whose expertise covers the research reported and with whom the author can communicate efficiently.

Editorial Board, addresses and primary interests:

V.M. AGRANOVICH
Institute of Spectroscopy,
USSR Academy of Sciences,
Troitsk, Moscow obl. 142092, USSR
Fax: 7-095-334-08-86

Condensed Matter Physics
Theoretical Physics
Statistical Properties of Condensed Matter

A.R. BISHOP
MS-B284, Center for Nonlinear Studies,
Los Alamos National Laboratory,
Los Alamos, NM 87545, USA
Bitnet: ARB@DOVE.LANL.GOV; Fax: 1-505-665-3003

Nonlinear Science
Statistical Physics

J.I. BUDNICK
Department of Physics, U-46,
2152 Hillside Road,
University of Connecticut,
Storrs, CT 06268, USA
Fax: 1-203-4863346

Condensed Matter Physics (experimental)

J. FLOUQUET
CRTBT/CNRS
Boîte Postale 166X, F-38042 Grenoble Cedex, France
Fax: 33-76-872197

Condensed Matter Physics

A.P. FORDY
Centre for Nonlinear Studies
and Department of Applied Mathematical Studies,
University of Leeds,
Leeds LS2 9JT, England

Nonlinear Science
Mathematical Physics
Cross-Disciplinary Physics

B. FRICKE
Fachbereich Physik, Universität Kassel,
Heinrich-Plett-Strasse 40, 3500 Kassel, Germany

Atomic and Molecular Physics

D.D. HOLM
MS-B284, Center for Nonlinear Studies,
Los Alamos National Laboratory,
Los Alamos, NM 87545, USA

Nonlinear Science
Mathematical and Computational Methods
in Theoretical Physics

A. LAGENDIJK
Natuurkundig Laboratorium, Universiteit van Amsterdam,
Valckenierstraat 65, 1018 XE Amsterdam, The Netherlands
Fax: 31-20-5255788

Condensed Matter Physics

A.A. MARADUDIN
Department of Physics, University of California,
Irvine, CA 92717, USA
Bitnet: AMARADUDIN@VMSA.OAC.UCI.EDU; Fax: 1-714-7252174

Condensed Matter Physics (theoretical)
Statistical Properties of Condensed Matter

M. PORKOLAB
Plasma Fusion Center, NW16-106,
Massachusetts Institute of Technology,
167 Albany Street, Cambridge, MA 02139, USA
Fax: 1-617-2530627

Plasma and Fluid Physics
Statistical Properties of Plasmas and Fluids

J.P. VIGIER
P.R. HOLLAND (Assistant Editor)
Laboratoire de Physique Théorique, Institut Henri Poincaré,
Université Pierre et Marie Curie,
11 Rue Pierre et Marie Curie, F-75231 Paris Cedex 05, France
Fax: 33-1-40510661

General Physics
Gravitation
Physical Principles of Astronomy

In case of doubt, contributions can be submitted directly to the publisher addressed to Physics Letters A, Elsevier Science Publishers B.V., P.O. Box 103, 1000 AC Amsterdam, The Netherlands. However, it should be realized that such papers will have to be forwarded to one of the editors, which will result in some delay.

No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the written permission of the Publisher, Elsevier Science Publishers B.V., Copyright and Permissions Department, P.O. Box 521, 1000 AM Amsterdam, The Netherlands.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Submission to this journal of a paper entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S.351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $ 2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

ENRICO FERMI
INTERNATIONAL SCHOOL OF PHYSICS

The Enrico Fermi International School of Physics aims to promote and disseminate up-to-date information on current developments in various fields of contemporary physics. It has built up a prestigious reputation as a high quality international school, where over the years many famous scientists, including some 24 Nobel Prize winners, have presented their lectures. So far, over 100 courses have been held, covering an impressive range of disciplines and representing some of the most important topics in modern physics, e.g. the physics of the elementary constituents of matter, the scientific and technical developments of solid state and plasma physics, the structure and dynamical properties of atomic nuclei and the cosmological evolution of stars. The Enrico Fermi International School thus plays an essential role in modern physics.

Volume 113

High-Pressure Equations of State: Theory and Applications

edited by **S. Eliezer** *and* **R.A. Ricci**
1991 xvi + 564 pages
Price: US $166.50/Dfl.325.00
ISBN 0-444-89259-1

Volume 111

Solid State Astrophysics

edited by **E. Bussoletti** *and* **G. Strazzulla**
1991 xii + 430 pages
Price: US $165.50/Dfl.290.00
ISBN 0-444-89218-4

Volume 109

Nonlinear Topics in Ocean Physics

edited by **A.R. Osborne**
1991 xx + 1000 pages
Price: US $ 215.00 / Dfl. 420.00
ISBN 0-444-89017-3

Volume 108

Photoemission and Absorption Spectroscopy of Solids and Interfaces with Synchrotron Radiation

edited by **M. Campagna** *and* **R. Rosei**
1990 xiv + 488 pages
Price: US $ 128.00 / Dfl. 250.00
ISBN 0-444-88470-X

Volume 107

The Chemical Physics of Atomic and Molecular Clusters

edited by **G. Scoles**
1990 xviii + 818 pages
Price: US $ 200.00 / Dfl. 390.00
ISBN 0-444-88331-2

Volume 106

Current Trends in the Physics of Materials

edited by **G.F. Chiarotti, F. Fumi** *and* **M.P. Tosi**
1990 xx + 928 pages
Price: US $ 225.50 / Dfl. 440.00
ISBN 0-444-88333-9

Volume 105

Confrontation between Theories and Observations in Cosmology: Present Status and Future Programmes

edited by **J. Audouze** *and* **F. Melchiorri**
1990 xiv + 456 pages
Price: US $ 287.00 / Dfl. 365.00
ISBN 0-444-87112-8

Volume 104

Frontiers and Borderlines in Many-Particle Physics

edited by **R.A. Broglia** *and* **J.R. Schrieffer**
1988 x + 460 pages
Price: US $ 166.50 / Dfl. 325.00
ISBN 0-444-87113-6

Volume 103

Trends in Nuclear Physics

edited by **P. Kienle, R.A. Ricci** *and* **A. Rubbino**
1989 xvi + 612 pages
Price: US $ 202.50 / Dfl. 395.00
ISBN 0-444-87114-4

In preparation:

Volume 110

Metrology at the Frontiers of Physics and Technology

edited by **L. Crovini** *and* **T.J. Quinn**

Volume 112

Nuclear Collisions from the Mean-Field into the Fragmentation Regime

edited by **C. Detraz** *and* **P. Kienle**

Volume 114

Industrial and Technological Applications of Neutrons

edited by **M. Fontana** *and* **F. Rustichelli**

Volume 115

The Use of EOS for Studies of Atmospheric Physics

edited by **J.C. Gille** *and* **G. Visconti**

Volume 116

Status and Perspectives of Nuclear Energy: Fission and Fusion

edited by **R.A. Ricci, C. Salvetti** *and* **E. Sindoni**

A subscription scheme offering 15% discount off the list price per volume is available.

Volumes 186-197 in 72 issues. Price: US $ 3012.00 / Dfl. 6084.00

Computer Physics Communications
Volumes 66-71 in 18 issues. Price: US $ 1562.00 / Dfl. 3156.00

Fluid Dynamics Research
Volume 10 in 6 issues. Price: US $ 243.00 / Dfl. 491.00

Journal of Crystal Growth
Volumes 114-123 in 40 issues. Price: US $ 3545.00 / Dfl. 7160.00

Journal of Geometry and Physics
Volumes 9 and 10 in 8 issues. Price: US $278.00/Dfl.562.00

Journal of Luminescence
Volumes 52-54 in 18 issues. Price: US $ 648.00 / Dfl. 1308.00

Journal of Magnetism and Magnetic Materials
Volumes 103-113 in 33 issues. Price: US $ 2456.00 / Dfl. 4961.00

Journal of Non-Crystalline Solids
Volumes 137-148 in 36 issues. Price: US $ 2352.00 / Dfl. 4752.00

Journal of Nuclear Materials
Volumes 185-194 in 30 issues. Price: US $ 2233.00 / Dfl. 4510.00

Materials Letters
Volumes 12-14 in 18 issues. Price: US $ 544.00 / Dfl. 1098.00

Materials Science Reports
Volumes 8 and 9 in 16 issues. Price: US $ 352.00 / Dfl. 712.00

Nuclear Instruments and Methods in Physics Research - Section A
Accelerators, Spectrometers, Detectors & Associated Equipment
Volumes 310-322 in 39 issues. Price: US $ 3900.00 / Dfl. 7878.00

Nuclear Instruments and Methods in Physics Research - Section B
Beam Interactions with Materials and Atoms
Volumes 62-71 in 40 issues. Price: US $ 3000.00 / Dfl. 6060.00
Reduced combined 1992 subscription price to Nuclear Instruments and Methods - A and B: US $ 6331.00 / Dfl. 12,788.00

Nuclear Physics A
Volumes 536-550 in 60 issues. Price: US $ 3832.00 / Dfl. 7740.00

Nuclear Physics B
Volumes 366-386 in 63 issues. Price: US $ 5364.00 / Dfl. 10,836.00
Reduced combined 1992 subscription price to Nuclear Physics A+B: US $ 6985.00 / Dfl. 14,110.00

Nuclear Physics B - Proceedings Supplements
Volumes 24-28 in 10 issues Price: US $ 658.00 / Dfl. 1355.00
Reduced 1992 subscription price if combined with Nuclear Physics B or Nuclear Physics A and B: US $ 547.00 / Dfl. 1105.00

Optical Materials
Volume 1 in 4 issues. Price: US $ 164.00 / Dfl. 331.00

Optics Communications
Volumes 86-93 in 48 issues. Price: US $ 1489.00 / Dfl. 3008.00

Physica A - Statistical and Theoretical Physics
Volumes 180-189 in 40 issues. Price US $ 1837.00 / Dfl. 3710.00

Physica B - Condensed Matter Physics
Volumes 175-182 in 32 issues. Price: US $ 1469.00 / Dfl. 2968.00

Physica C - Superconductivity
Volumes 185-201 in 68 issues. Price: US $ 3122.00 / Dfl. 6307.00

Physica D - Nonlinear Phenomena
Volumes 53-60 in 18 issues. Price: US $ 1496.00 / Dfl. 2968.00

Reduced rates are available for combined subscriptions to Physica; please contact the publisher for details.

Physics Letters A
Volumes 160-171 in 72 issues. Price: US $ 1848.00 / Dfl. 3732.00

Physics Letters B
Volumes 272-293 in 88 issues. Price US $ 3387.00 / Dfl. 6842.00

Physics Reports
(including Computer Physics Reports)
Volumes 215-227 in 78 issues. Price: US $ 2001.00 / Dfl. 4043.00
Reduced combined 1992 subscription price to Physics Letters A, Physics Letters B & Physics Reports: US $ 6305.00 / Dfl. 12,737.00

Solar Energy Materials and Solar Cells
Volumes 25-27 in 12 issues. Price: US $ 447.00 / Dfl. 903.00

Solid State Ionics
Volumes 51-58 in 32 issues. Price: US $ 1202.00 / Dfl. 2528.00

Surface Science
(including Surface Science Letters)
Volumes 258-275 in 54 issues. Price: US $ 4019.00 / Dfl. 8118.00

Surface Science Reports
Volume 15 in 8 issues. Price: US $ 171.00 / Dfl. 346.00
Reduced combined 1992 subscription price to Surface Science (including Surface Science Letters), Applied Surface Science and Surface Science Reports: US $ 5093.00 / Dfl. 10,287.00

Ultramicroscopy
Volumes 42-46 in 20 issues. Price: US $ 894.00 / Dfl. 1805.00

The Dutch Guilder price (Dfl.) is definitive. The US $ price is for your guidance only as same is subject to exchange rate fluctuations. Subscribers in Japan should add 25% surcharge on the postage, packing and handling charges for SAL delivery of issues. Journals are sent by Surface Mail to all countries except to the following where Air Delivery via SAL mail is ensured at no extra cost to the subscriber: Argentina, Australia/New Zealand, Brazil, Hong Kong, India, Israel, Malaysia, Mexico, Pakistan, P.R. China, Singapore, S. Africa, S. Korea, Taiwan, Thailand, USA & Canada. The quoted prices are excluding 6% BTW for subscribers in The Netherlands.

INSTRUCTIONS TO AUTHORS *(continued from page 2 of cover)*

The manuscripts should be submitted in triplicate, one copy of which is the typewritten original.

All contributions will be refereed. The editors reserve the right to edit contributions, whenever necessary, and to refuse papers which in their opinion do not satisfy conditions as to standard or contents. Linguistic corrections not affecting the meaning will be carried out by the publisher.

By submitting a paper for publication in Physics Letters the authors imply that the paper has not been published previously nor has been submitted for publication elsewhere.

Manuscripts should be typed on one side of the paper, with double spacing and a wide margin. The title page should contain title, author(s), address(es) and abstract. The main text should start on a new page.

The *length* of the papers is not formally limited, but expedient and compact formulation, appropriate to a letters journal, is expected. The editor may require the removal of figures, lengthy introductions, derivations, descriptions of apparatus or speculations if these are not essential for the efficient and clear communication of important new results. An *abstract* of less than 50 words is required.

The drawings for the *figures* must be submitted on separate sheets, drawn in black India ink and carefully lettered (with the use of stencil), in such a way that they can be reduced to a one-column width. Sharp and contrast glossy prints are also acceptable. If requested, original drawings will be returned to the author(s) upon publication of the paper.

Corrections and modifications. Once the paper has been accepted for publication, minor corrections should be sent directly to the publisher (see below). Extensive modifications should be sent to the editor, while the publisher should be notified to hold publication. Authors may be charged with the costs of necessary retypesetting.

After acceptance of the paper for publication, all further correspondence (except extensive modifications, see above) should be sent to the publisher (Drs. F.A. Kop, Editorial Department, North-Holland Physics, P.O. Box 103, 1000 AC Amsterdam, The Netherlands; telephone number (020) 5862638), and not to the editors.

More elaborate instructions to authors can be found at the end of each volume.

Page charge and reprints: There is no page charge. Twenty-five reprints of each article will be supplied free of charge. Additional reprints may be ordered from the Publisher; an order form is sent to contributors upon acceptance of their communications.

SUBSCRIPTIONS

PHYSICS LETTERS A and PHYSICS LETTERS B will each be published weekly. For 1992 12 volumes, volumes 160–171 (72 issues altogether) of Physics Letters A have been announced. The subscription price for these volumes is Dfl. 3360.00 (US$ 1663.50). Postage and handling amount to Dfl. 372.00 (US$ 184.00). Therefore the total price is Dfl. 3732.00 (US$ 1847.50). For 1992 22 volumes, volumes 272–293 (88 issues altogether) of Physics Letters B have been announced. The subscription price for these volumes is Dfl. 6160.00 (US$ 3049.50). Postage and handling amount to Dfl. 682.00 (US$ 337.50). Therefore the total price is Dfl. 6842.00 (US$ 3387.00).

PHYSICS REPORTS will be published approximately weekly. For 1992 13 volumes, volumes 215–227 (78 issues altogether) of Physics Reports have been announced. The subscription price for these volumes is Dfl. 3640.00 (US$ 1802.00). Postage and handling amount to Dfl. 403.00 (US$ 199.50). Therefore the total price is Dfl. 4043.00 (US$ 2001.50).

The price for a combined subscription to the 1992 volumes of Physics Letters A, Physics Letters B and Physics Reports is Dfl. 12737.00 (US$ 6305.50), including postage and handling.

Dutch guilder prices are definitive; dollar prices are for guidance only.

Subscriptions may be sent to your subscription-agent, bookseller or to the Publisher: ELSEVIER SCIENCE PUBLISHERS B.V., Journals Department, P.O. Box 211, 1000 AE AMSTERDAM, THE NETHERLANDS.

Claims for missing issues should be made within two months following the date of publication. The Publisher expects to supply missing issues free only when losses have been sustained in transit and when stock will permit.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Submission to this journal of a paper entails the author's irrevocable and exclusive authorization of the Publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S.351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US$ 2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the Publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

The Journal of Geometry and Physics is an International Journal in Mathematical Physics. The Journal stimulates the interaction between geometry and physics by publishing primary research-, discussion- and review articles which are of common interest to scientists in both fields.

The Journal covers the following areas of research:

Methods of:
- Lie groups and Lie algebras and their representations
- Quantum groups and their representations
- Algebraic geometry
- Differential topology
- Real and complex differential geometry
- Geometrical approaches to dynamical systems and partial differential equations
- Global analysis
- Non-commutative differential geometry

Applications to:
- Classical mechanics of systems of finite and infinite degrees of freedom
- Quantum mechanics, especially geometrical schemes of quantization
- Classical and quantum field theory
- Quantum fields on curved space-time
- Classical and quantum gravity
- Strings and superstrings

Forthcoming Papers:
C. Ferrario and A. Passerini: Dynamical symmetries in constrained systems: a Lagrangian analysis • *D. Gurevich, V. Rubstov and N. Zobin:* Quantization of Poisson pairs: the *R*-matrix approach • *G.W Patrick:* Relative equilibria in Hamiltonian systems: The dynamic interpretation of nonlinear stability on a reduced phase space • *J. Grabowski*: Abstract Jacobi and Poisson structures: Quantization and star-products • *A. Cabras and A.M. Vinogradov:* Extensions of the Poisson bracket to differential forms and multi-vector fields • *B.A. Khesin* : Ergodic interpretation of integral hydrodynamic invariants • *J. Kijowski and G. Magli:* Relativistic elastomechanics as a Lagrangian field theory.

In case of doubt, contributions can be submitted directly to the publisher addressed to Physics Letters A, Elsevier Science Publishers B.V., P.O. Box 103, 1000 AC Amsterdam, The Netherlands. However, it should be realized that such papers will have to be forwarded to one of the editors, which will result in some delay.

US mailing notice – Physics Letters A (ISSN 0375-9601) is published weekly by Elsevier Science Publishers (Molenwerf 1, Postbus 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the USA US$ 2040.00 (subject to change), including air speed delivery. Second class postage paid at Jamaica, NY 11431.

USA POSTMASTERS: Send address changes to Physics Letters A, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Airfreight and mailing in the USA by Publication Expediting.

Progress in Low Temperature Physics

Volume XIII

edited by **D.F. Brewer**

1992 xvi + 394 pages Price: US $ 159.00 / Dfl. 310.00 ISBN 0-444-89109-9

Since 1955 *"Progress in Low Temperature Physics"* has continued to monitor scientific achievements in the realm of low-temperature physics. Obtaining low temperatures used to be an aim in itself in the past, whereas nowadays achieving millikelvin temperatures is a routine experimental procedure. However, the properties of materials at these low temperatures contine to produce fascinating physics: the liquid, solid and superfluid, phases of the quantum fluids ^{3}He and ^{4}He as well as 'new' materials such as high-temperature superconductors and tiny quantum devices display their macroscopic quantum behavior only at the lowest temperatures.

Volume XIII of this series continues the tradition of collecting fundamental studies of macroscopic quantum phenomena. In this volume, properties of new systems such as small circuits at low temperatures and high-T_c superconductors are studied. But the systems that are formed by ^{3}He and ^{4}He and their mixtures at low temperatures continue to dazzle and amaze with their ever more intricate properties studied with increasing accuracy. This volume provides the reader with an archival overview of the magic world of low temperatures as perceived by todays most sensitive probes.

Contents: Preface. Contents of previous volumes. 1. Critical behavior and scaling of confined ^{4}He *(F.M. Gasparini and I. Rhee).* 2. Ultrasonic spectroscopy of the order parameter collective modes of superfluid ^{3}He *(E.R. Dobbs and J. Saunders).* 3. Thermodynamics and hydrodynamics of ^{3}He-^{4}He mixtures *(A.Th.A.M. de Waele and J.G.M. Kuerten).* 4. Quantum phenomena in circuits at low temperatures *(T.P. Spiller, T.D. Clark, R.J. Prance and A. Widom).* 5. The specific heat of high-T_c superconductors *(N.E. Phillips, R.A. Fisher and J.E. Gordon).* Author index. Subject index.

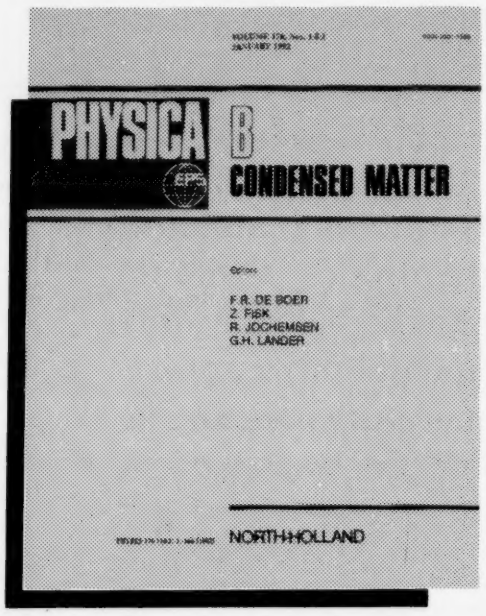
2 INDISPENSABLE INFORMATION SUPERCURRENTS



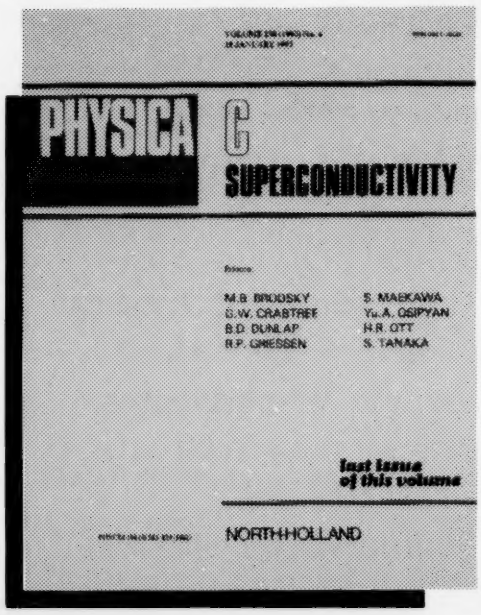
PHYSICA B - Condensed Matter

Editors:

U.S.A.: **Z. Fisk**, Los Alamos, NM
R.O.W.: **F.R. de Boer**, Amsterdam, The Netherlands
R. Jochemsen, Leiden, The Netherlands
G.H. Lander, Karlsruhe, Germany

PHYSICA B publishes papers and review articles in the realm of physics of condensed matter. Both experimental and theoretical contributions are invited, although theoretical papers should preferably be related to experimental results. In addition, PHYSICA B has published and will present the following top-level conference proceedings:

Valence Fluctuations, Rio de Janeiro, Brazil, July 1990;
Low Temperature Physics (LT 19), Brighton, United Kingdom, August 1990;
Hydrogen in Semiconductors, Trieste, Italy, August 1990;
Methods of Analysis & Interpretation of Neutron Reflectivity Data, Argonne, IL, U.S.A., August 1990;
Neutron Scattering, Bombay, India, January 1991;
Analogies in Optics and Microelectronics, Eindhoven, The Netherlands, May 1991;
Superfluid 3He in Rotation, Helsinki, Finland, June 1991;
Neutron Scattering, Oxford, United Kingdom, August 1991;
Research in High Magnetic Fields, Amsterdam, The Netherlands, August 1991;
Applications of High Magnetic Fields in Semiconductor Physics, Chiba, Japan, August 1992;
Low Temperature Physics (LT 20), Eugene, OR, U.S.A., August 1993



PHYSICA C - Superconductivity

Editors:

U.S.A.: **M.B. Brodsky**, Argonne, IL
G.W. Crabtree, Argonne, IL
B.D. Dunlap, Argonne, IL
R.O.W.: **R.P. Griessen**, Amsterdam, The Netherlands
S. Maekawa, Nagoya, Japan
Yu. A. Osipyan, Chernogolovka, Russia
H.R. Ott, Zurich, Switzerland
S. Tanaka, Tokyo, Japan

PHYSICA C serves as an exclusive, rapid channel (*publication within six to ten weeks is guaranteed)* for articles on superconductivity and related subjects. This includes theoretical papers on the fundamental issues raised by high-Tc superconductivity, reports on measurements of a wide variety of physical properties of high-Tc superconductors, on new materials and new preparation techniques, on thin-film and device-oriented work and on theoretical results pertinent to such experiments. New results in the traditional areas of superconductivity as well as on novel phenomena will also be included.

In addition to regular articles, the **Interlaken**-, the **Stanford**- and the **Kanazawa**-proceedings have been published in PHYSICA C.

Please contact the Publisher at the address mentioned below for your complimentary sample copy of PHYSICA B or PHYSICA C.

INSTRUCTIONS TO AUTHORS *(continued from page 2 of cover)*

The manuscripts should be submitted in triplicate, one copy of which is the typewritten original.

All contributions will be refereed. The editors reserve the right to edit contributions, whenever necessary, and to refuse papers which in their opinion do not satisfy conditions as to standard or contents. Linguistic corrections not affecting the meaning will be carried out by the publisher.

By submitting a paper for publication in Physics Letters the authors imply that the paper has not been published previously nor has been submitted for publication elsewhere.

Manuscripts should be typed on one side of the paper, with double spacing and a wide margin. The title page should contain title, author(s), address(es) and abstract. The main text should start on a new page.

The *length* of the papers is not formally limited, but expedient and compact formulation, appropriate to a letters journal, is expected. The editor may require the removal of figures, lengthy introductions, derivations, descriptions of apparatus or speculations if these are not essential for the efficient and clear communication of important new results. An *abstract* of less than 50 words is required.

The drawings for the *figures* must be submitted on separate sheets, drawn in black India ink and carefully lettered (with the use of stencil), in such a way that they can be reduced to a one-column width. Sharp and contrast glossy prints are also acceptable. If requested, original drawings will be returned to the author(s) upon publication of the paper.

Corrections and modifications. Once the paper has been accepted for publication, minor corrections should be sent directly to the publisher (see below). Extensive modifications should be sent to the editor, while the publisher should be notified to hold publication. Authors may be charged with the costs of necessary retypesetting.

After acceptance of the paper for publication, all further correspondence (except extensive modifications, see above) should be sent to the publisher (Drs. F.A. Kop, Editorial Department, North-Holland Physics, P.O. Box 103, 1000 AC Amsterdam, The Netherlands; telephone number (020) 5862638), and not to the editors.

More elaborate instructions to authors can be found at the end of each volume.

Page charge and reprints: There is no page charge. Twenty-five reprints of each article will be supplied free of charge. Additional reprints may be ordered from the Publisher; an order form is sent to contributors upon acceptance of their communications.

SUBSCRIPTIONS

PHYSICS LETTERS A and PHYSICS LETTERS B will each be published weekly. For 1992 12 volumes, volumes 160–171 (72 issues altogether) of Physics Letters A have been announced. The subscription price for these volumes is Dfl. 3360.00 (US$ 1840.00). Postage and handling amount to Dfl. 372.00 (US$ 200.00). Therefore the total price is Dfl. 3732.00 (US$ 2040.00). For 1992 22 volumes, volumes 272–293 (88 issues altogether) of Physics Letters B have been announced. The subscription price for these volumes is Dfl. 6160.00 (US$ 3370.00). Postage and handling amount to Dfl. 682.00 (US$ 370.00). Therefore the total price is Dfl. 6842.00 (US$ 3740.00).

PHYSICS REPORTS will be published approximately weekly. For 1992 13 volumes, volumes 215–227 (78 issues altogether) of Physics Reports have been announced. The subscription price for these volumes is Dfl. 3640.00 (US$ 1990.00). Postage and handling amount to Dfl. 403.00 (US$ 220.00). Therefore the total price is Dfl. 4043.00 (US$ 2210.00).

The price for a combined subscription to the 1992 volumes of Physics Letters A, Physics Letters B and Physics Reports is Dfl. 12737.00 (US$ 6960.00), including postage and handling.

Dutch guilder prices are definitive; dollar prices are for guidance only.

Subscriptions may be sent to your subscription-agent, bookseller or to the Publisher: ELSEVIER SCIENCE PUBLISHERS B.V., Journals Department, P.O. Box 211, 1000 AE AMSTERDAM, THE NETHERLANDS.

Claims for missing issues should be made within six months following the date of publication. The Publisher expects to supply missing issues free only when losses have been sustained in transit and when stock will permit.
